CAPABILITIES STATEMENT

LEUMAS ENGINEERING GROUP

At Leumas Engineering Group, our vision is to be a leading underground utility contractor in the United States and its territories. In over 15 years in the industry, we have become known for our expertise, innovation, and commitment to safety and quality. We are dedicated to providing reliable, efficient, and sustainable solutions that meet the needs of our clients and contribute to the development of resilient infrastructure for communities worldwide.

CORE COMPETENCIES

Leumas Engineering Group serves as an 8a certified Structural Engineering Firm. We're a team of fully certified professionals who tackle everything from complex large-scaled projects to smaller scale jobs in engineering. On our construction side, we are adept in underground utility, disaster restoration, both new and renovated residential homes, and commercial projects. Fueled by our commitment to excellence, we make sure clients are completely satisfied with our work.
